**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have lived in Berkeley for 7 years. In those 7 years, AT&T has done nothing to improve the quality of the area. They have squandered the lines and are attempting to suppress any local freedom I have. There is no fiber here yet, and never will be with AT&T. When I had AT&T, I could only get aDSL at 6 mb/s. High speed internet is NOT 6 mb/s. Competition is not paying the same price as Cable or Fiber and getting trash service. Why not have cable as an alternative? There is no cable option in my apartment building. Without sonic, I would have NO COMPETITION. I have Sonic now and they have been working to improve the area, provide better service, and remain competitive. AT&T only sends me ads for services I CANNOT GET.

I urge you to support local broadband providers who provide alternatives and services.

Jason Will
